American Nursing Informatics Association Nursing Informatics Certification Review Course

This is an intensive one and one half day course focusing on preparing the attendee for the ANCC Nursing Informatics certification exam.

Dates: Friday, September 14th, 8:00 am – 5:00 pm with registration starting at 7:30 am
Saturday, September 15th, 8:00 am – 12:45 pm

Location: Shawnee Mission Medical Center
9100 W. 74th Street, Shawnee Mission, KS
In the Shawnee Mission Room

- 100% focused on certification review and interactive learning format
- Highly qualified instructor(s) who hold current ANCC certification in nursing informatics.
- *Mometrix Informatics Nurse Exam Secrets Study Guide* included
- 1.5-day format 12 ANCC contact hours*
- Registration fee: ANIA Member - \$400 and Nonmember - \$490
- Further information and to register is at <https://www.ania.org/education/anias-official-certification-review-course/nursing-informatics-certification-review-6>
- Cancellations: Must be done in writing to ANIA - either by email to ANIA@ajj.com or fax to 856-218-0557. A \$75 administrative fee will be applied if cancelled on/prior to Sept 6, 2018. After this date, there are no refunds.

*This educational activity has been jointly provided by Anthony J. Jannetti, Inc., and ANIA. Anthony J. Jannetti, Inc., is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Anthony J. Jannetti, Inc. is a provider approved by the California Board of Registered Nursing, provider number, CEP 5387.

Learning Outcome: After completing this workshop, the participant will have validated basic foundational knowledge on concepts of nursing informatics and improved preparedness for the certification exam.

Course Objectives

1. Formulate a learning plan for completing the ANCC certification examination for nursing informatics
2. Examine the foundations of professional nursing informatics practice.
3. Examining the models, and theories in support nursing informatics practice.
4. Discuss regulatory and accreditation agencies and their impact on nursing informatics practice.
5. Identify key steps and concepts of the system life cycle as they apply to nursing informatics practice.
6. Examine data management and health care technology considerations as they apply to nursing informatics practice.

Course Topics

These topics from the March 23rd, 2018 ANCC Test Content outline will be presented.

See <http://nursecredentialing.org/Informatics-TCO2018> for more details.

- I. Foundations of Practice
- II. System Design Life Cycle
- III. Data Management and Health Care Technology
