

Candidate's Declaration to Run for Board

Position: President

Term: January 2023 – December 2024

Candidate: Orlando Scott

Candidate's Statement

Hello Georgia ANIA! My name is Orlando Scott. I currently reside in Atlanta Georgia but travel for my role as a senior workflow consultant for a global medical device company. In this role I focus on device integration projects to various EMRs as well as improving workflow efficiencies, and early detection of acute deterioration in General Ward patients.

For the past several years I have had the honor of serving as Board Member at Large for the Georgia Chapter of ANIA. This opportunity has allowed me to exchange ideas and knowledge with like-minded individuals in the field of Nursing Informatics. I am now interested in running for the position of your Georgia ANIA President. Working closely with the current President Mark Bassett, he has demonstrated the passion and dedication to the position which I share. His guidance, leadership and persistence to create a professional organization for the Georgia ANIA community has inspired me.

If elected to the position I would like to continue Mark's passion for the organization as well as continue to foster relationships with the membership, fellow chapters, and other professional organizations. I see this role as the chance to grow our chapter into one dedicated to collaboration, networking, education, innovation, and service to the community at large. I would like to assist in continuing to make the Atlanta ANIA become one of the premier distinguished chapters in the nation to advance Nursing Informatics in all roles and settings.
